A MADRID CONSIGNMENT

The following one hundred and ninety-three coins (206-398) are a specialty collection of Mexico from 1808 to 1822 plus three pieces from Santa Marta. Included are regular issues, Royalist and Insurgent provisional issues and a fascinating group of countermarked coins, many of them validating coins that would otherwise be considered false.

DURANGO — The listing of AG as an assayer of this mint each year from 1812 thru 1822 is probably incorrect. Listed in the old Armengol collection in Barcelona, these initials were picked up by Herrera, Pradeau, Yriarte and Burzio. The cataloguer knows of no one who has ever seen these initials on the coins of Durango.

The PROVISIONAL COINAGE OF ZACATECAS was issued from November 14, 1810 to March 26, 1813. There were two major types of Crowned Arms and pillars for obverses of the LVO (LABOR VINCIT OMNIA) type and two major LVO reverses. There are innumerable minor varieties in each major group. These were followed by the bust type which had two major obverse designs and one general reverse type. These may be arranged as follows:

Obv. A. FERDINANDUS. VII. DEI. GRATIA 8 R. 1811. in a continuous circle starting at 9 o'clock around what may be called a local coat of arms. A strange crown, no inscription on the ribbons, the shield having a flower sprig in the 1st and 4th quarters, castles in the 2nd and 3rd quarters, a different sprig or branch in the base instead of a pomegranate, and an escutcheon of five points instead of the Bourbon lilies are the main characteristics of this local shield.

ROYALIST MEXICO

- Obv. B. Starting at 7:00 o'clock, FERDIN. VII. DEI. GRATIA. 8R and the date reading normally at the 6:00 o'clock position. This surrounds the normal Crowned Spanish Coat of Arms.
- Obv. C. Starting at 7:00 o'clock, FERDIN. VII. 8R DEI. GRATIA and the date below, surrounding an armored bust facing right.
- Obv. D. Same as Obv. C, but the bust is draped instead of being armored.
- Rev. a. The border inscription starting at 9:00 o'clock reads, MONEDA. PROVISIONAL. DE. ZACATECAS. There is a double mountain (La Bufa and El Grillo) with a cross atop the near peak, L.V.O. below the mountain and a garland from one side of the base to the other looped below the LVO. An annulet anchors each side of the garland with fifteen (possibly more or less) asterisks or rosettes.
- Rev. b. Similar, but the inscription starts at 12 o'clock, the cross is on the far mountain, the garland has about 18 links and its anchors are large dots.
- Rev. c. The same inscription starts at 1:00 o'clock and surrounds the regular Crowned Spanish Arms.

Minor coins follow the same general standards, but have necessary modifications because of size.
